**FACT: One in nine Americans has kidney disease. Thanks to NKF that number can be reduced.**

- Every 13 minutes a new name is added to the organ transplant waiting list.
- Every day 17 people die while waiting.
- Patients and their families are learning how to cope with the physical and psychological aspects of the disease and now have hope for the future.
- Because of NKF, everyone is becoming more aware of the signs of Kidney Disease...taking steps towards its prevention.

In a typical year, 80% of every dollar raised goes directly to programs and services, earning NKF a 4-star rating from Charity Navigator (a national charity watchdog agency). The goal of the NKF is to raise money to support our mission, which seeks to prevent kidney and urinary tract diseases, improve the health and well-being of individuals and families affected by these diseases, and increase the availability of all organs and transplantation. With your help, I'm sure they will reach several local goals and our national goal if not exceed, this it!

\*The NYC Kidney Walk is the largest kidney walk in the country. Last year over \$750,000 was raised and over 6000 participants walked in solidarity to raise awareness and funds to fight kidney disease and increase the availability of organs for transplantation.
